

Further Information

For more detail or further information on, viral hepatitis and liver health there are many factsheets and resources on our website:

www.liverwell.org.au

The LiverWELL App:

The LiverWELL App is an easy to use mobile app to help you manage your liver health with functions including:

- Reminders to take medications.
- Organising medical appointments.
- Recording test results.
- Keeping health notes all in one place.

The App also contains up to date information about liver health and self-management.

THEApp has basic translations in different language options.

It is available to download on Apple and Android

LiverLine

The LiverLine is a friendly non-judgmental phone service that provides information, support and referrals. It is for people living with hepatitis B or C or liver disease, and also for workers, friends, family or anyone wanting more information about viral hepatitis. The service is free and confidential.

Available 9-5 Monday to Friday

LiverLine
