

'How To' Resource Guide

This directory and resource has been developed to help support and answer questions about viral hepatitis and liver health and direct people to prevention and treatment services.

At the top of the page you can navigate to factsheets. These can be printed or emailed.

The directory can be searched by name or location as well as filtered for specific services. You can compile a list of relevant services by selecting 'Save to print list'. Under the tab 'View print list' you will then be able to print or email this personalised list.

If you have any questions about this resource or have any comments or suggestions please email admin@liverwell.org.au
