Notes for teachers/educators

This activity looks at hepatitis B transmission (how people get hepatitis B). Participants can learn what is true and what is false.

Instructions for the activity:

1. Hand out picture cards to each participant
2. Participants are to put the cards in the true or false categories.
3. Answers are on the back of the true or false categories.

Tips for participants:

- Encourage participants to practice their speaking and listening skills by asking other people what their card is.
